

Mounts

***Each person, regardless of
the degree of disability, has
the right to influence,
through communication, the
conditions of their own life.***

*National Joint Committee for the Communication Needs of Persons with Severe Disabilities, 1992

Introduction

Our product line includes a variety of mounting systems designed for different environments and user needs, such as solutions for wheelchair, table, bed, and wall mounts.

Wheelchair mounts allow users in wheelchairs to comfortably operate communication devices. The dual-material construction, nylon and aluminum, enables flexible or locked tube positioning based on individual needs.

Table mounts support effective positioning of communication devices. They adapt easily to different surfaces and user needs.

Bed mounts are designed for use in various settings, including home and hospital environments. Each arm moves independently and, thanks to the D-Safe system, guarantees safe and secure usage.

The **wall mount**, equipped with a jointed head, allows the communication device to be positioned according to the patient's facial orientation.

The **tablet support** provides a stable and secure base for your tablet and the Deye eye tracker, ensuring clear screen visibility and easy eye interaction. Practical and versatile, it adapts to a variety of settings for effortless use.

Wheelchair mounts

Wheelchair mounts are available in four versatile and reliable models, compatible with the VESA mounting system and major third-party quick-release systems.

They feature high-quality standard knobs, and with the D-Clamp technology (made from nylon and aluminum), wheelchair vibrations are minimized, making the mount safer and more stable.

Handy D1

The **Handy D1** wheelchair mount, equipped with the D-Safe security system, is designed to be mounted on any type of wheelchair. It includes three adjustable aluminum tubes that can be positioned using joints and knobs.

Technical Specifications

Height: min 60 cm – max 120 cm

Load capacity: 3.5 kg

Mount weight: 1.2 kg

Materials: Aluminum, plastic, nylon

Color: Grey and black

Handy D2

The **Handy D2**, also featuring the D-Safe security system, is compatible with any type of wheelchair. It includes a dual-tube system and two additional adjustable aluminum tubes, easily positioned using joints and ergonomic handles.

Technical Specifications

Height: min 60 cm – max 120 cm

Load capacity: 6.0 kg

Mount weight: 1.7 kg

Materials: Aluminum, plastic, nylon

Color: Grey and black

Handy D3

The **Handy D3** wheelchair mount, with D-Safe security, is designed to support devices such as tablets and mini-PCs. It includes three adjustable aluminum tubes, positioned using joints and enhanced-grip knobs.

Technical Specifications

Height: min 60 cm – max 120 cm

Load capacity: 2.0 kg

Mount weight: 1.0 kg

Materials: Aluminum, plastic, nylon

Color: Grey and black

Handy D4

The **Handy D4** with D-Safe security system is the ideal solution for mounting adapters, sensors, and switches with direct 1/4" and 3/8" connectors.

Technical Specifications

Height: min 60 cm – max 120 cm

Load capacity: 400 g

Mount weight: 1.7 kg

Materials: Aluminum, plastic, nylon

Color: Grey and black

Table Mounts

Available in three versions, **Gantry**, **Flexi**, and **Handy D5**, our table mounts offer practical and secure positioning solutions for communication devices.

They feature a variety of attachment methods including clamps, suction cups, and tripods, allowing for precise adjustments and easy adaptation to different surfaces and environments.

Gantry

The **Gantry** table mount provides secure positioning of communication devices via a height-adjustable tripod and a suction base for surface attachment.

It includes a quick-release system for fast device attachment/detachment.

Technical Specifications

Height: min 45 cm – max 60 cm

Load capacity: 7.0 kg

Mount weight: 1.5 kg

Materials: Aluminum alloy

Color: Black

Flexi

The **Flexi** table mount is ideal for sensors and switches. With its flexible, octopus-style legs, it can be wrapped around wheelchair tubes, tables, or irregular surfaces.

Its jointed head allows for easy angle adjustments to suit the user's preferences.

Technical Specifications

Max height (folded): 28 cm

Max width (open): 40 cm

Load capacity: 400 g

Mount weight: 150 g

Materials: ABS plastic

Color: Black

Handy D5

The **Handy D5** table mount features a universal clamp and is designed to be securely fixed to stable surfaces.

Technical Specifications

Height: 50 cm

Length: 40 cm

Load capacity: 5 kg

Mount weight: 1.5 kg

Materials: Aluminum, plastic, metal

Color: Grey and black

Bed Mounts – D-Stand

The **D-Stand** bed mount is designed to facilitate device usage by bedridden patients. It includes an extendable arm with a jointed head, and a gas piston for height adjustment.

Four caster wheels ensure stability. The D-Stand supports all Dialog devices as well as third-party devices compatible with VESA systems.

Technical Specifications

Height: 161.5 x 76 x 60 cm

Length: 99 x 76 x 60 cm

Load capacity: 7.0 kg

Mount weight: 7.5 kg

Materials: Aluminum, nylon

Color: Grey and black

Wall Mounts – Easy Arm

The **Easy Arm** wall mount is a flexible arm designed not to interfere with movement around bedridden patients. Once mounted to a sturdy wall, the communication device can be attached to the arm and easily adjusted using the jointed head.

Once positioned, the arm can be securely locked in place using adjustment knobs.

Technical Specifications

Extension (wall bracket to arm): min 75 cm – max 125 cm

Load capacity: 4.5 kg

Mount weight: 3.0 kg

Material: Aluminum alloy

Color: Black

Tablet Support – Universal Tablet Support

The **Universal Tablet Support** is a versatile solution designed to securely hold a tablet along with the Deye eye tracker. It is compatible with all Dialog mounts as well as mounts with VESA attachments.

Technical Specifications

Tablet width: 22.5 cm to 33 cm

Tablet height: 13.5 cm to 25 cm

Tablet thickness: 6 mm to 11 mm

Weight: 0.40 kg

Color: Black
